Stargames footballs for the 2023 season!

Our brand **Stargames®** is especially suitable for the promotion of healthy lifestyles and thus a pillar of well-being for your organization as well.

We are often asked to manufacture various products such as footballs that are delivered within a few days. If only it were that easy!

Custom-made footballs take a considerable amount of time, and we manufacture the balls to your order from the beginning. Together with sports clubs and other organizations that support a healthy lifestyle and social welfare, we have come to the following solution. We can still deliver footballs directly from the factory in about 15-20 days!

Making high-quality football requires time, different techniques, research, special tools and, of course, experienced craftsmen.

Promotion balls for the 2023 season:

- We deliver the balls in batches of 100, the price for 1 ball is €60 + VAT 24%
- Products must be paid for when ordering
- As an option, it is possible to use WMS-Tilit financial management services cooperation according to the agreement

Best Regards,
